Notes:

*Technical Electives are courses in any technical field. HASS, PAGN, Military Science, ROTC, McBride and the business courses of EBGN are not accepted technical electives.

** Chemistry Electives are non-required courses taught within the Chemistry Department. In addition, graduate level Chemistry and Geochemistry courses taught within the Chemistry Department are acceptable.

*** The list of courses that qualify for this requirement are revised yearly and posted on the Mines website. At least one of the courses must be at the 400-level; at least one must have an HASS prefix.

**** Environmental Chemistry Electives (CHEV) are courses that are directly or indirectly related to Environmental Chemistry. Examples include environmental CEEN courses and CHGN462 Microbiology. Students can consult their advisors for further clarification. One of the Environmental electives will count toward the CORE requirement of 9 Free Elective hours.
